

Air Driven Hydro Test Pump

Series : LDAP

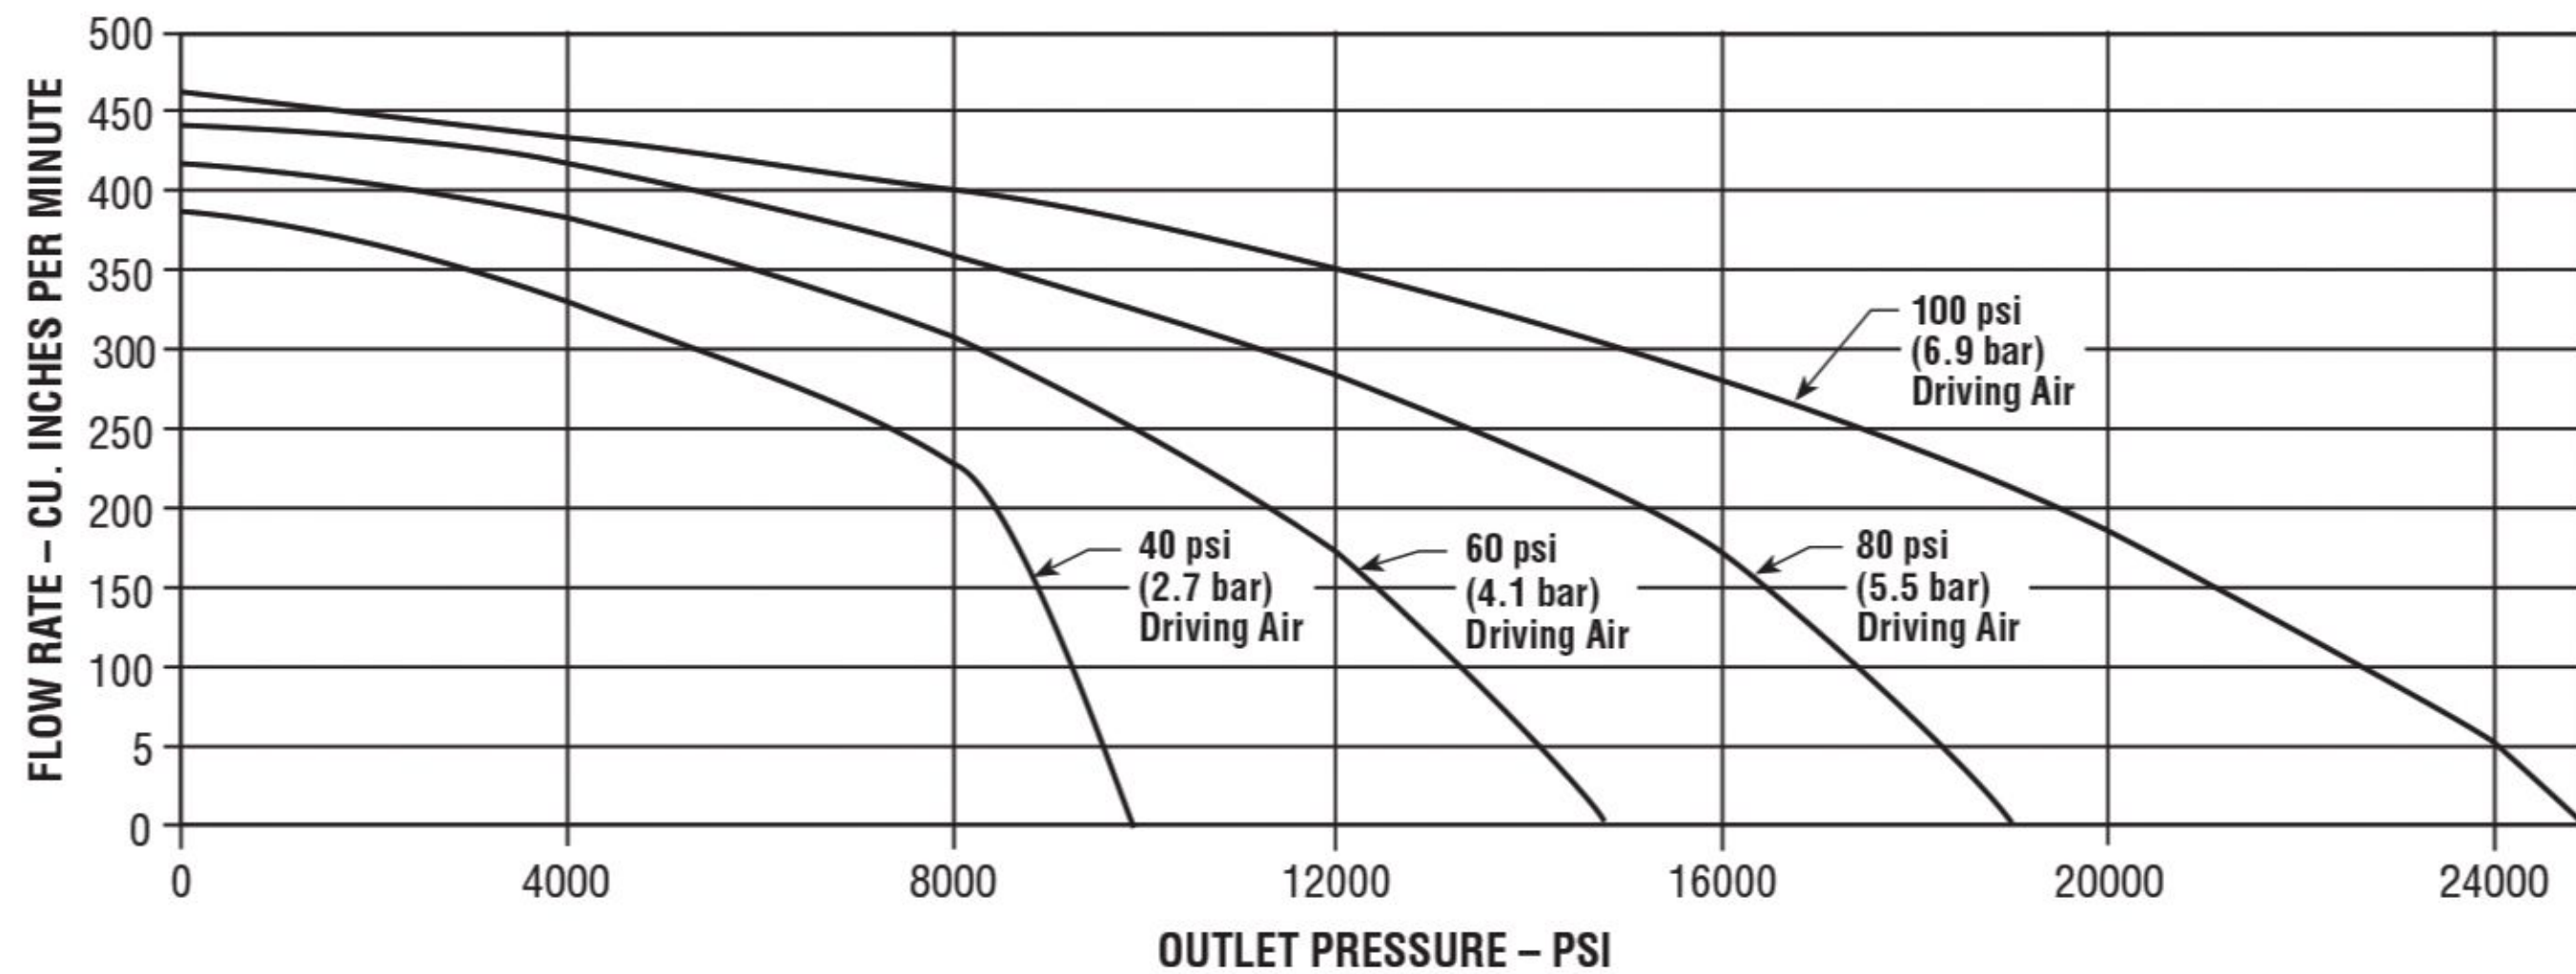

Models LDAP200D is fixed with double ended single acting pumps picture (B) produces high pressure liquid flows upto 2.5 gallons per minute and pressure

upto 20000 psi. The pumps are featured with fewer moving parts and seals which reduces maintenance. Pump unit is ideal for hydrostatic testing

For model : LDAP200D

Discharge Capacity - Cubic Inchs (Liters) per Minute - Approximate
Based on 350 SCFM of air flow @ 100 psi

Pump Model No.	0psi (0 bar)	4000psi (276 bar)	8000psi (552 bar)	12000psi (828 bar)	16000psi (1104 bar)	20000psi (1380 bar)
LDAP200D	525 (8.6)	510 (8.36)	470 (7.7)	375 (6.15)	230 (3.77)	-
